## **DETAILED ACTION**

### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

**Cancel claims 16-17, 41-49.**

#### ***Allowable Subject Matter***

Claims 1-2, 50-57 are allowed.

The following is an examiner's statement of reasons for allowance:

Applicant's arguments dated 9/26/05 are deemed persuasive and have overcome the Examiner's prior art rejection. Consequently claim 1 contains allowable subject matter because prior art of record fails to teach halo implants into one only of the source and drain regions in less than all of the peripheral MOS transistors of the first type, and not the other of the source and drain regions of said less than all of the peripheral MOS transistors of the first type in combination with the other limitations of claim 1. Claims 2 and 50-57 act only to further narrow the allowable subject matter of claim 1 and are therefore also deemed to be allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
